

1. Crisp-precise roll sequence entry into a 1/4 clover leaf.
 2. Multiple vertical rolls into a hammer-spin turnaround.
 3. Reverse Cuban turnaround with 1-1/2 rolls on the 45 upline and a ratchet roll combo at the bottom to an inverted exit.
 4. 6 negative G outside-inside loop with rolls on top.
 5. 2 point roll into a half Cuban turnaround with multiple rolls on the 45 downline.
 6. Wedge turnaround with a full roll on the vertical and multiple snaps on the 45 degree downline.
 7. Unique rolling reverse Cuban turnaround.
 8. Double snap avalanche (loop with 2 snaps on top).
 9. Rhythmically crisp point roll series into a half Cuban turnaround.
 10. Unique 4 point roll featuring 3/4 rolls
 11. P loop turnaround with rolling exit invert.
 12. Inverted entry rolling 210 degree turn.
- BREAK** (thank sponsors, etc.)
13. Crisp-precise roll sequence entry.
 14. Triple snap avalanche.
 15. 3/4 snap to knife edge slider on the 45 degree upline.
 16. Obligatory Airshow Torque Roll.
 17. Unique rolling half Cuban turnaround.
 18. Vertical rolls into a hover, followed by multiple snap rolls on the downline.
 19. Double Hammer head turnaround with mix of vertical rolls and snaps.
 20. Unique rolling 360 degree turn performed with 4 point rolls.
 21. Series of crisp-precise ratchet rolls and turnaround.
 22. Slow-fast-slow roll... Old school super slow roll with a unique new school twist.
 - 23-24. Turnaround to Annabel Somersault Tumble
 - 25-26. Turnaround into Heart Dedication
 27. Flat Rudder Sliding Turnaround
 28. Slip photo pass ("get cameras ready").

SCOTT AIRSHOWS

Doin' it Rhythmically Crisp!

Take an inspiring personal story of innovation and perseverance and combine it with a one-of-a-kind routine featuring a diverse blend of highly challenging maneuvers flown with rhythmic precision and the result is an airshow performance that stands out from the rest.

THE PERFORMANCE

Airshow and competition pilot, Dave Scott, grew up in Oshkosh, Wisconsin, the home of the Experimental Aircraft Association (EAA) and the world's greatest aviation convention and airshow.

Building on lessons learned watching the very best aerobatic pilots perform at EAA, Dave's performance features a unique blend of non-stop action and constant variety that both inspires and entertains. The mix of challenging maneuvers flown with rhythmically crisp precision sets Scott Airshows performance apart from routines made up mostly of tumbles or stock maneuvers.

Yet the biggest reason why Scott Airshows is such a hit with audiences is the uplifting background story about the kid from Oshkosh who grew up dreaming of following in the footsteps of the pilots he watched perform during EAA. How he created the world's first commercial radio control (R/C) flight school, and then applied the techniques that he developed training R/C pilots to become a champion full-scale aerobatic pilot. And ultimately how the performance they are watching is proof that dreams do come true!

THE PILOT

Dave Scott was first introduced to aviation on the roof of his father's car parked at the end of a runway when he was 1 month old. He's since dedicated his life to innovative aviation pursuits and is one of the new champions rapidly rising up the ranks of competitive aerobatics.

As a highly accomplished R/C pilot and instructor, Dave developed a revolutionary system of accelerated R/C flight training and turned a world-wide demand for his instruction into a full-time R/C training and writing career.

Applying the techniques he developed training competition R/C pilots to his full-scale flying, Dave won the first aerobatic contest he entered by an unprecedented margin over 20 other pilots in his category, as well as won the *Highest Points Percentage* trophy awarded to the pilot who comes closest to achieving perfection at the contest!

Since building his highly modified Pitts biplane to enable him to compete at the Advanced level and fly airshows, Dave has won the majority of contests he's entered, including Gold and Silver medals at the U.S. National Aerobatic Championships, while becoming one of the Midwest's most popular airshow acts.
