

SCOTT AIRSHOWS

Do in' it Rhythmically Crisp!

THE PERFORMANCE

Airshow and competition pilot, Dave Scott, grew up in Oshkosh, Wisconsin, the home of the Experimental Aircraft Association (EAA) and the world's greatest aviation convention and airshow.

Building on all his years watching the very best aerobatic pilots perform at EAA, Dave developed a distinct airshow performance that sets him apart from the usual barrage of tumbles and stock maneuvers seen at most shows. His artistic placement and diverse blend of challenging maneuvers flown with rhythmic precision both captivates audiences as well as entertains a wide variety of tastes.

Yet the biggest reason why Scott Airshows is such a hit with audiences is the uplifting background story about the kid from Oshkosh who grew up dreaming of following in the footsteps of the pilots he watched perform during EAA. How he created the world's first commercial radio control (R/C) flight school, and then applied the techniques that he developed training R/C pilots to become a champion full-scale aerobatic pilot. And ultimately how the performance they are watching is proof that dreams do come true!

THE PILOT

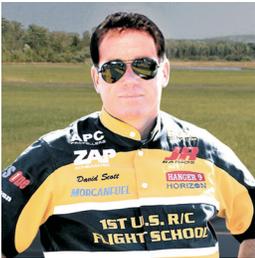

Dave Scott was first introduced to aviation on the roof of his father's car parked at the end of a runway when he was 1 month old. He's since dedicated his life to innovative aviation pursuits and is one of the new champions rapidly rising up the ranks of competitive aerobatics.

As a highly accomplished R/C pilot and instructor, Dave developed a revolutionary system of accelerated R/C flight training and turned a world-wide demand for his instruction into a full-time R/C training and writing career.

Applying the techniques he developed training competition R/C pilots to his full-scale flying, Dave won the first aerobatic contest he entered by an unprecedented margin over 20 other pilots in his category, as well as won the *Highest Points Percentage* trophy awarded to the pilot who comes closest to achieving perfection at the contest!

Since building his highly modified Pitts biplane to enable him to compete at the Advanced level and fly airshows, Dave has won the majority of contests he's entered, including Gold and Silver medals at the U.S. National Aerobatic Championships, while becoming one of the Midwest's most popular airshow acts.

A unique blend of non-stop action, crisp precision, and constant variety...

Dave Scott
Aerobatic Pilot • Instructor • Author

Take an amazing personal story of innovation and perseverance and combine it with a one-of-a-kind routine featuring a diverse blend of highly challenging maneuvers and the result is an airshow performance that stands out from the usual barrage of tumbles and stock maneuvers on display at most shows.
